*Wednesdays in March: Connection Groups will not be meeting for the month of March. Instead we will all be gathering at the church at 7:00pm for a teaching of "New Life Studies".

Last week we concluded our study of Noah, his family, the flood, and the re-population of the earth after the flood.

Was there anything about last week's study that you learned?

Is there anything that stuck with you throughout this last week?

Tonight we will be covering a couple different stories from Genesis that occurred after the flood, and we will be introduced to Abram.

What do you know about what happened after the flood and re-population of the earth?

Can anyone discuss their knowledge of the "Tower of Babel"?

Who is Abram?

In Genesis 10 we see another lineage recording. We will not be reading this chapter tonight but you are encouraged to read the full account on your own.

Read the following Scriptures and discuss.

Genesis 11:1-4

Genesis 11:5-7

Genesis 11:8-9

The rest of chapter 11 is a record of Shem's lineage. As a reminder, Shem was one of Noah's three sons that were saved on the ark. We will not read the entire record of lineage, but we will read a portion because it shows us the connection between Noah and Abram (who we will be introduced to tonight and studying more in April).

Genesis 11:10-11

Genesis 11:27-32

Genesis 12:1-3

Genesis 12:4-9

Genesis 12:10-16

Genesis 12:17-20

Is there anything that was read tonight that stuck out to you?

Is there anything you are looking forward in the study of Abram?

Do you find value in studying these Bible stories? Why?
